# IFP-002

## Fiber Pedestal

## Description

Designed specifically for housing passive equipment, these special pedestals feature direct-bury bases with a high rib design that do not require stakes for installation. The direct-bury pedestal bases result in a more uniform and secure installation and are less likely to lean or tilt. An optional stake mounting provision is available for joint trench or other special applications.

A special self-locating cover security feature ensures that the pedestals lock properly without requiring special alignment.

## Features

- 8" round profile provides maximum workspace and bend radius provisions for all passives,cables and connectors
- Round pedestal style maintains a consistent look with legacy pedestals in the field
- Constructed of durable, high-strength materials for maximum security and long service life
- Universal equipment mounting bracket for passives facilitates installation standardization and reduces inventory
- Optional stake mounting provision for joint trench or other special applications

## Specifications

### Mechanical Structure and Dimension

- Material of Housing: HDPE
- Dimension:650mm(Height) x 250mm(Diameter)
